Which Animal Are You? Personal Behavioral Style Assessment Inventory Questionnaire

Here’s how to figure out where you most likely fit among the four animal styles. This is an informal survey, designed to determine how you usually act in everyday situations. The idea is to get a clear description of how you see yourself.

For each of the pairs of statements below, distribute three points between the two alternatives (A and B), depending on how characteristic of you the statement is. Although some pairs of statements may seem equally true for you, assign more points to the statement that is more representative of your behavior most of the time.

Examples:
Statement A is very characteristic of you and B is very uncharacteristic.
Write “3” next to A and "0" next to B.

Statement A is more characteristic of you than B.
Write "2" next to A and "1" next to B.

Statement B is very characteristic of you and A is very uncharacteristic.
Write "3" next to B and “0” next to A.

After you have marked answers to all eighteen pairs of statements, transfer your ratings to the blanks on the scoring sheet.

Please base your answers on how you actually behave, not on how you think you should behave. (Remember: the numbers you assign to each pair must add up to 3.)
